GILLETTE, WY—“Youth in the sheep industry can combine current technology with their passion for Columbia sheep,” says Sara Hildebrandt, President of the Columbia Sheep Breeders Association of America (CSBA). “It is why the CSBA is sponsoring a program for youth to create videos of their Columbia sheep operation. We are in a day and age where it is easy to take video with the phone in their pocket when they go to the barn. Getting them to promote Columbias and combine this with technology is a progressive thing to do for the sheep industry,” says Hildebrandt.

The program, a first for the association, has at its core the purpose to produce video suitable for public viewing on YouTube and Columbiasheep.org related to Columbia sheep.
